## Overview of ESG initiatives

- The Group's carbon footprint per million rupees of revenue and water withdrawal per million rupees of revenue increased by 4.2% to 0.6 MT and by 4.8% to 7.7 cubic meters respectively.
  - o In absolute terms the carbon footprint increased by 18% to 45,759 MT, while water withdrawal increased by 19% to 637,650 cubic meters.
  - The increase is primarily due to the operations of the Cinnamon Life hotel, which was not within the sustainability reporting boundary in Q1 2024/25, as it was a project under construction, and updates to the Scope 1 emissions calculation methodology.
  - Excluding the Cinnamon Life hotel, the carbon footprint and water withdrawal per million rupees of revenue decreased by 8.3% and 9.5% respectively.
- The Group's renewable energy usage for the quarter stood at 4,879,598 kWh, which amounts to 9% of total energy consumption, with the Retail industry group contributing the highest share.

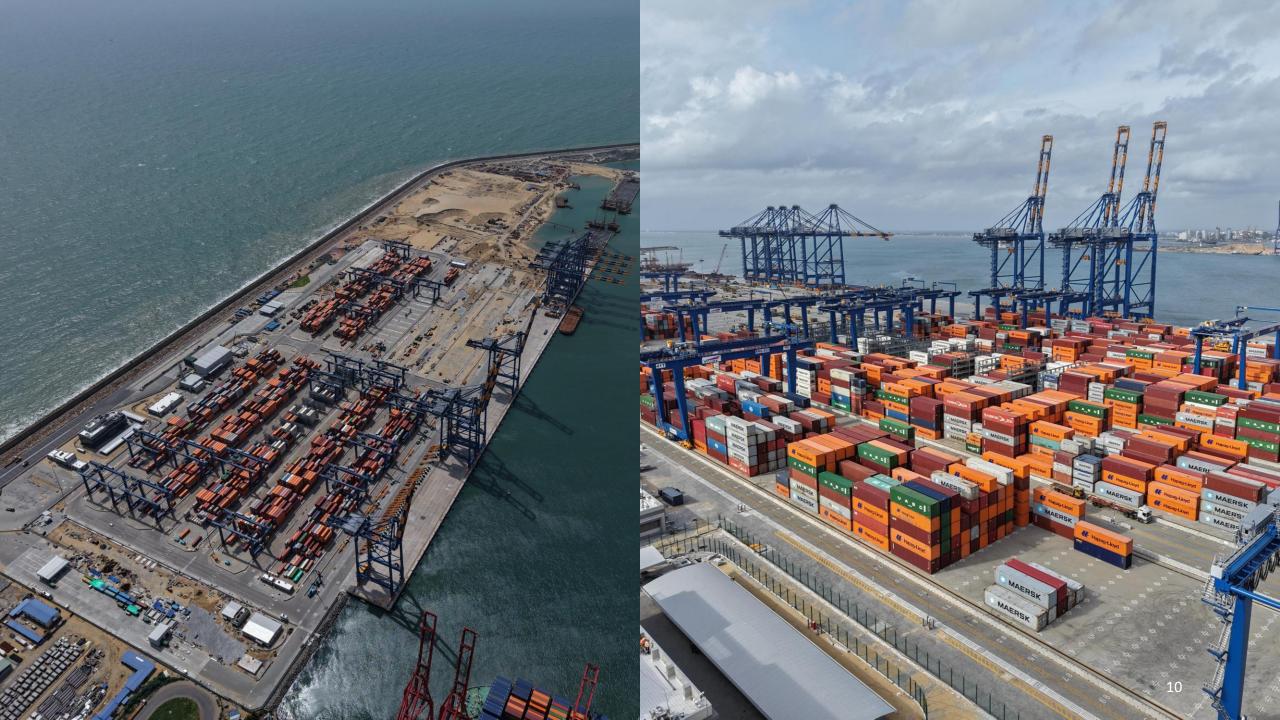

## West Container Terminal at the Port of Colombo

- The Group marked the first full quarter of commercial operations at the West Container Terminal (WCT-1) at the Port of Colombo.
- Throughput to date at WCT-1 has been encouraging, and this momentum is expected to accelerate over the coming quarters.
- The first phase of operations will increase the overall capacity of the POC by ~1.6 million TEUs, once scaled up.
- Given the anticipated rapid growth in regional container volumes and demand, the terminal has the potential to achieve a cash-positive position within the first year of operations, subject to the impacts on regional and global trade dynamics.
- Similarly, as growth accelerates quarter on quarter, it is expected that the run rate of volumes, will enable earnings to be at breakeven.
- The full completion of construction of the terminal is on track for 2H 2026/27.

#### Q1 2025/26:

 The conversion of standard format outlets to an extended format and promotional campaigns contributed to same store sales growth. Same Store Footfall 16.6%

#### Q1 2024/25:

- Customer count increased driven by initiatives to attract new customers as well as improved footfall from existing customers.
- Continued demand towards Modern Trade in comparison to General Trade.

#### **Q1 2025/26**:

- Customer count increased driven by initiatives to attract new customers as well as improved footfall from existing customers from benefits passed on through the Nexus loyalty programme.
- Initiatives in fresh categories, enhancement of the prepared food offering and availability attracted new customers and increased shopping frequency of existing customers.
- Continued demand towards Modern Trade in comparison to General Trade.

ABV (3.1)%

#### Q1 2024/25:

- June 2024 NCPI (YoY): 2.4 %.
- The recovery in the consumption of nonessential items lead to an increase of the Weight of Purchase (WOP).
- Improving consumer sentiment led to an improvement in ABV compared to Q4 2023/24.

#### **Q1 2025/26**:

- June 2024 NCPI (YoY): 0.3%.
- The decline is mainly attributable to the reduction in Retail Selling Price (RSP) and WOP. Whilst spend per visit has reduced, the frequency of shopping to the outlet has increased.
- The range of initiatives undertaken by the business aimed at increasing footfall have successfully elevated the frequency of customer visits, although this shift in behaviour has resulted in reduced spend per visit.

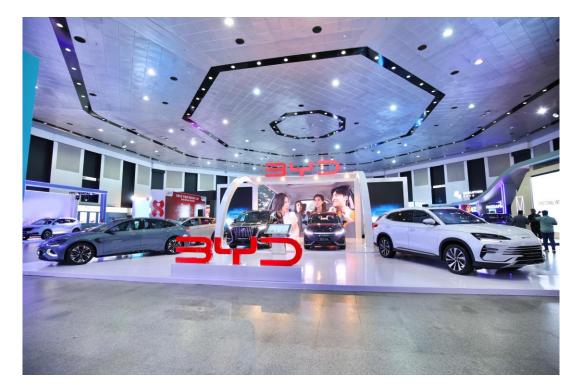

## Retail: Q1 2025/26

### **New Energy Vehicles business:**

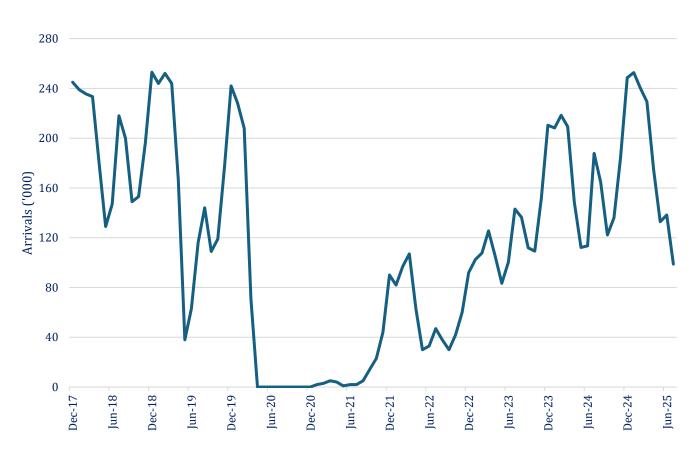

- The total orders received of over 7,100 units have exceeded expectations.
- Profit on the vehicles will be recognised upon the handover of vehicles to customers.
- JKCG expanded its customer reach through showroom expansions in Ampara and Kurunegala.
- Launched the 'BYD Shark' in May 2025 and the business will continue to selectively expand its range of vehicles to capture different customer segments at varying pricing points in the ensuing quarters.
- JKCG will continue to optimise the Keells supermarket network and other business locations across the country to create the necessary ecosystem required for the NEV business, augmenting the on-going expansion of the network by other players. Currently, ~20 Keells supermarkets host EV charging stations across the country.

## City of Dreams Sri Lanka

- The remaining components of the Group's flagship integrated resort, City of Dreams Sri Lanka, is scheduled to launch on August 2, 2025, with the operationalisation of all elements.
- The shopping mall, branded as 'The Shoppes', will commence operations in a phased manner, with the elements and offerings of the mall gradually ramping up.
- The Group is confident that the culmination and convergence of all elements in the operationalising of City of Dreams Sri Lanka will unlock its full potential as a transformative development in South Asia and be a catalyst in creating tourism demand, enhancing foreign exchange earnings for Sri Lanka and generating employment.
- The impact of this project on tourism and the economy is expected to be significant, mirroring the success of integrated resorts in the region - including in more developed tourism markets like Singapore.

- The Cinnamon Life hotel continues to be positively received by the market, both locally and internationally, with encouraging demand and bookings for the various conference and event spaces at the property.
- As anticipated, the hotel has experienced a gradual rampup in terms of room occupancy, reflecting the typical lead time required for MICE-related bookings and international events to gain momentum following a new hotel launch.
- Month-on-month improvements in occupancy levels indicate growing market traction and increasing visibility.
- The event spaces are in high demand and fully booked during certain periods over the ensuing months.

- NTB recorded a strong growth in profitability aided by loan growth and lower impairments.
- UA recorded encouraging double-digit growth in gross written premiums, driven by renewal premiums and regular new business premiums.
- Profitability at UA was impacted by a decline in interest income due to a reduction in the size of the shareholder fund base due to the investment in the bancassurance partnership with Sampath Bank PLC.

<sup>\*</sup>Share of profits from the associate of 32.6%.
